

# DMC1129 GENERAL PURPOSE INSERTION AND REMOVAL TOOL KIT

**DMC1129 INSERTION AND  
REMOVAL TOOL KIT**

DMC's General Purpose Insertion and Removal Tool Kit, DMC1129, contains metal insertion and removal tools for Mil-Spec Circular Connectors and D-Sub Connectors.

It is not a cost effective use of the time of your technical staff to start from scratch and try to become intimately knowledgeable about which precision tools must be used to repair each electrical connector, contact and terminal. The DMC1129 kit supplies your staff with both the information and the tools necessary to assemble and disassemble Mil-Spec Circular Connectors and D-Sub Connectors.

DMC has cross referenced these tools to the connectors, contacts and terminals, eliminating costly and time-consuming research which would otherwise have to be performed by your electrical technicians.

In addition, the DMC1129 kit contains illustrated operating instructions for all the tooling included.

## DMC1129 TOOL AND ACCESSORY LIST

	8	Metal Insertion Tools
	8	Metal Removal Tools

## TOOL KIT CONFIGURATION

Type of Case	Portable
Number of Cases	1
Color	Gray
Type of Construction	Steel
Application	Contact Insertion Removal
Type of Inserts	Unicellular Polyethylene Foam with Die Cut Tool Cavities
