

DMC1247 HYDRAULIC 5.5 TON CRIMPING TOOL KIT for INSULATED TERMINALS & SPLICES

DMC1247 HYDRAULIC 5.5 TON CRIMPING TOOL KIT

The DMC1247 Tool Kit is designed for crimping insulated terminals and splices size 8 through 4.

DMC's HD51 Medium Duty Hydraulic Crimper is the most popular hand operated hydraulic crimper. The tool is still lightweight at 4.6 pounds, but the 5.5 tons of die force and the larger die configuration extends the range of crimping capabilities to 2/0 AWG conductors in many applications. The HD51 Hydraulic Crimper utilizes rugged construction, lightweight materials, and comfortable handle grips for the best ergonomic advantage.

In addition, the DMC1247 kit contains illustrated operating instructions for all the tooling included.

TOOL KIT CONFIGURATION

Type of Case	Portable
Number of Cases	1
Color	Grey
Type of Construction	Steel/Aluminum
Application	Insulated Terminals & Splices
Type of Inserts	Unicellular Polyethylene Foam with Die Cut Tool Cavities

DMC1247 TOOL AND ACCESSORY LIST

1	Hydraulic Crimp Tool
3	Die Sets
