

DMC1277 MIL-C-38999 MAINTENANCE KIT

For Electrical Connectors, Power Contacts, & Coax

DMC1277 KIT for MIL-C-38999 Series I, II, III, & IV Connectors

Actual Kit may vary from example shown.

The DMC1277 electrical connector, power contact, and coax maintenance kit contains the crimp tools, turret head, positioners, gages, and insertion/removal tools necessary to service MIL-C-38999 Series I, II, III, & IV connectors.

It is not a cost effective use of the time of your technical staff to start from scratch and try to become intimately knowledgeable about which precision tools must be used to repair each electrical connector, contact and terminal. The DMC1277 kit supplies your staff with both the information and the tools necessary to repair MIL-C-38999 Series I, II, III, & IV connectors.

DMC has cross referenced these tools to the MIL-C-38999 Series I, II, III, & IV connectors and the contacts they use, eliminating costly and time-consuming research which would otherwise have to be performed by your electrical technicians. This information is contained in an easy to read tool selection chart.

In addition, the DMC1277 kit contains illustrated operating instructions for all the tooling included.

DMC1277 TOOL AND ACCESSORY LIST		
	6	Crimp Tools
	1	Turret Head
	7	Positioners
	2	Single Position Head
	2	Die Sets
	7	Insertion Tweezers
	7	Removal Tweezers
	1	Unwired Contact Removal Tool w/ Probes
	4	In-Service Inspection Gages
	1	Hex Wrench
	1	Die Removal Tool

TOOL KIT CONFIGURATION	
Type of Case	Portable
Number of Cases	1
Color	Gray
Type of Construction	Steel/Aluminum
Application	MIL-C-38999 Series I, II, III, & IV, Power Contacts, Coax
Type of Inserts	Unicellular Polyethylene Foam with Die Cut Tool Cavities
