

DMC1358S STEEL JAM NUT TOOL KIT

DMC1358S STEEL JAM NUT TOOL KIT

The correct application of torque is essential to most connector applications where Jam Nut receptacle connectors are used. The sealing components (usually an "O" ring) must be compressed, but not to the point of damage. Another important consideration when tightening Jam Nuts is the thread strength, especially in the various types of aluminum and composite connectors.

The DMC1358S Jam Nut Tool Kit contains steel jam nut tools sizes .608" to 3.557". In addition, the DMC1358S kit contains illustrated operating instructions for all the tooling included.

Why Steel? For Firewall or other applications where higher torque values are required.

DMC1358S TOOL AND ACCESSORY LIST

	2	T-Handle Wrenches
	50	Steel Jam Nut Sockets

TOOL KIT CONFIGURATION

Type of Case	Portable
Number of Cases	1
Color	Brown
Type of Construction	Steel/Aluminum
Application	Jam Nut Sockets
Type of Inserts	Unicellular Polyethylene Foam with Die Cut Tool Cavities

Actual Kit may vary from example shown.
