

A Complete Tool And Parts Kit To Support Your EMI/RFI Shielding Applications.

The DMC1379 .250 Banding Tool Kit includes the tools necessary to install and remove 1/4" termination bands. This travel-ready system provides the user with Tools, Verification Equipment, Accessories, a supply of Bands, and the Instructions all in one package.

The packaging materials (fiberglass case, foam inserts, and laminated instructions) are manufactured to meet the most demanding handling conditions. FOD (Foreign Object Damage) is always a concern when workers are required to use tools and small components in or around an aircraft. The "contouring" principal is a proven concept for Tool/parts control to minimize that concern.

The termination of EMI/RFI shielding materials is a specialized science in today's aerospace wiring systems. Application tooling is a critical factor in the overall performance of the wiring system components.

DMC has worked closely with the world's leading connector accessory manufacturers to develop the necessary tooling and accessories to meet the stringent demands of aerospace and defense system contractors.

DMC is well known throughout the aerospace industry for the quality and capability of the Tool Kits that we manufacture. If you have specific needs that cannot be covered by the Tool Kit described here, please call a DMC customer service representative for information on a Kit that will more appropriately meet your requirements.

DMC1379 TOOLS AND ACCESSORY LIST

Part Number	Quantity	Description
DBS-1100	1	Hand Operated Band Application Tool - 1/4"
DBS-BR1	1	Band Removal Tool
DBS-RO3	1	Roll-Over Tool for .250 Band Tab
DBS-1100-32	1	Calibration Adjustment Key
DBS-CG2	1	Field Calibration Fixture for DBS-1100
G691	1	Go/No-Go Gage for DBS-CG2 Fixture
4-1380	50	.250 wide x 14.0" long EMI/RFI Band (Flat)*

Patent information: Tools featured on this data sheet are covered all or in part by the following patents:

4,934,416 – 5,000,232 – 4,996,868 - 5,111,853 – 5,172,737 – 5,154,210

* Band can also be supplied curled (contact factory)

Tool kit supplied in 1 fiberglass case and includes: Name Plate, Foam Pads/Inserts, Contents Charts and Instruction Sheets.
