

# DMC1383 CRIMPING TOOL KIT for INSULATED and NON-INSULATED TERMINALS and SPLICES

## DMC1383 CRIMPING TOOL KIT

The **HD51** Medium Duty Hydraulic Crimper is the most popular hand operated hydraulic crimper. The **HD51** is still lightweight at 4.6 pounds, but the 5.5 tons of die force and the larger die configuration extends the range of crimping capabilities to 2/0 AWG conductors in many applications. The **HD51** Hydraulic Crimper utilizes rugged construction, lightweight materials, and comfortable handle grips for the best ergonomic advantage. The number of handle closures required to complete the crimp is reduced by the larger and more efficient hydraulic pump system.

The DMC1383 Tool Kit not only contains the HD51, but also die sets to cover insulated terminals and splices sizes 8 through 2/0 as well as Sizes 8 through 2/0 non-insulated terminals and splices. In addition, the DMC1383 kit contains illustrated operating instructions for all the tooling included.

### DMC1383 TOOL AND ACCESSORY LIST

	1	Crimp Tool (Hydraulic)
	6	Die Sets (Insulated Terminals)
	6	Die Sets (Non-Insulated Terminals)

### TOOL KIT CONFIGURATION

Type of Case	Portable
Number of Cases	1
Color	Grey
Type of Construction	Steel/Aluminum
Application	Insulated & Non-Insulated terminals and Splices
Type of Inserts	Unicellular Polyethylene Foam with Die Cut Tool Cavities
