

DMC1481 WIRING SYSTEM SERVICE KIT

For the MH-60S Aircraft Platform

**DMC1481
for MH-60S Platform**

THE MAINTENANCE PROBLEM...

Modern aircraft, such as the MH-60S, have complicated electrical wiring systems containing many different connectors, contacts and terminals, the repair of which require precision tools.

THE DMC SOLUTION...

IMMEDIATE AVAILABILITY OF TOOLS.

DMC Wiring System Service Kits provide, in a single, well organized location, the tools necessary to strip, crimp, install and remove the typical contacts and terminals of this wiring system. Instructions and technical information for the DMC1481 kit can be found in Technical Manual A1-H60S-WCR-010.

ALL IN ONE. This tool set consists of approximately 177 unique tools and is considered Peculiar Support Equipment (PSE) for the MH-60S. Since these tools are contained in a single kit, the connector repair can be made in the shortest time possible, thus permitting a rapid return of your aircraft to service. Tool kit supplied in 4 environmentally sealed fiberglass cases and includes: Name Plate, Foam Pads/Inserts, & Contents Charts.

TOOL KIT CONFIGURATION	
Type of Case	Portable
Number of Cases	4
Color	White
Type of Construction	Fiberglass/Aluminum
Application	MH-60S Platform
Coverage	Airframe Power Connectors
	Terminals size 12 AWG and Smaller
	Coaxial Connectors
Type of Inserts	Plastazote Foam with Die Cut Tool Cavities

Actual Kit may vary from example shown.
