

DMC1503 GENERAL PURPOSE INSERTION AND REMOVAL TOOL KIT

**DMC1503 INSERTION AND
REMOVAL TOOL KIT**

DMC's General Purpose Insertion and Removal Tool Kit, DMC1503, contains metal insertion and removal tools for Mil-Spec Circular Connectors.

It is not a cost effective use of the time of your technical staff to start from scratch and try to become intimately knowledgeable about which precision tools must be used to repair each electrical connector, contact and terminal. The DMC1503 kit supplies your staff with both the information and the tools necessary to assemble and disassemble Mil-Spec Circular Connectors.

DMC has cross referenced these tools to the connectors, contacts and terminals, eliminating costly and time-consuming research which would otherwise have to be performed by your electrical technicians. This information is contained in an easy to read tool selection chart.

In addition, the DMC1503 kit contains illustrated operating instructions for all the tooling included.

DMC1503 TOOL AND ACCESSORY LIST

	15	Metal Insertion Tools
	14	Metal Removal Tools
	3	Unwired Contact Removal Tools w/ 10 Probes

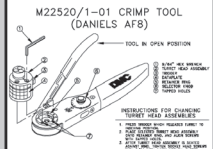

TOOL KIT CONFIGURATION

Type of Case	Portable
Number of Cases	1
