

DMC1546 Electrical Connector Maintenance Kit AS50151 Series 3450 & MIL-DTL-28840

The DMC1546 electrical connector maintenance kit contains the crimp tools, turret head, positioners, gages, and insertion/removal tools necessary to service AS50151 Series 3450 & MIL-DTL-28840 connectors.

It is not a cost effective use of the time of your technical staff to start from scratch and try to become intimately knowledgeable about which precision tools must be used to repair each electrical connector, contact and terminal. The DMC1546 kit supplies your staff with both the information and the tools necessary to repair AS50151 Series 3450 & MIL-DTL-28840 connectors.

DMC has cross referenced these tools to the AS50151 Series 3450 & MIL-DTL-28840 connectors and the contacts they use, eliminating costly and time-consuming research which would otherwise have to be performed by your electrical technicians. This information is contained in an easy to read tool selection chart.

In addition, the DMC1546 kit contains illustrated operating instructions for all the tooling included.

DMC1546 KIT for AS50151 Series 3450 & MIL-DTL-28840 Connectors

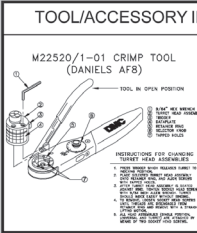

Actual Kit may vary from example shown.

DMC1546 TOOL AND ACCESSORY LIST		
	2	Crimp Tools
	1	Turret Head
	1	Positioners
	7	Metal Insertion Tools
	3	Metal Removal Tools
	1	In-Service Inspection Gage
	1	Hex Wrench

TOOL KIT CONFIGURATION	
Type of Case	Portable
Number of Cases	1
Color	Grey
Type of Construction	Steel/Aluminum
Application	AS50151 Series 3450 & MIL-DTL-28840
Type of Inserts	Unicellular Polyethylene Foam with Die Cut Tool Cavities
