

DMC1924 CIRCULAR RING PLIERS TOOL KIT

**DMC1924
CIRCULAR RING
PLIERS TOOL KIT**

The **DMC1924** kit supplies your staff with the tools and accessories necessary for circular connectors and backshell components sizes 7 through 28.

The DRP-XX circular ring pliers are specifically designed to grip circular connector and backshell components which would be deformed by other gripping methods. The nonmarring rubber jaw lining material is available in strip form and may be used to replace worn jaw inserts.
