DMC2187 CRIMP TOOL KIT FOR AUTOSPORT

THE MAINTENANCE PROBLEM...

Modern autosport vehicles demand high reliability electrical wiring systems. The installation and repair of these systems on Formula One, Grand Prix, World Rally, NASCAR Stock Car, Moto Grand Prix, Le Mans Series Sport Car, Whelen Modified Sport Bikes and Super Bikes systems requires precision tools.

It is not a cost effective use of the time of your technical staff to start from scratch and try to become intimately knowledgeable about which precision tools must be used to repair each electrical connector, contact and terminal when DMC has already performed this task for the Deutsch (TE) Autosport Series.

THE DMC SOLUTION...

TOOLING RESEARCH. DMC has already researched the list of connectors for Deutsch (TE) and has identified the most common tools required to maintain the electrical connectors. DMC has cross referenced tools to the connectors, contacts and terminals eliminating costly and time-consuming research which would otherwise have to be performed by your local technicians.

IMMEDIATE AVAILABILITY OF TOOLS AND TECHNICAL INFORMATION. The DMC2187 kit contains the tooling to connector, contact and terminal cross reference information which indicate the particular tool(s) that should be selected to repair a specific connector, contact, or terminal. In addition, the kit also contains illustrated operating instructions for the required tooling.

ALL IN ONE. Since these tools, together with their operating instructions, are contained in a single kit, the connector repair can be made in the shortest time possible, thus permitting a rapid return of your aircraft to service. Tool kit supplied in an environmentally sealed Polypropylene Copolymer cases and includes: Name Plate. Foam Pads/Inserts, Contents Charts, Instruction Charts, and Tool Selection Charts.

Actual Kit may vary from example shown.

DMC2187 CRIMP TOOL KIT FOR AUTOSPORT

DMC2187 TOOL AND ACCESSORY LIST		
	2	Crimp Tools
	1	Turret Head
Q.	10	Positioners
	1	Hex Wrench
Algo.	1	In-Service Inspection Gage
	1	Wire Harness Spoon

* TOOL KIT DOES NOT CONTAIN
INSTALLING/REMOVAL TOOLS

DMC2187 CONNECTOR COVERAGE				
MANUFACTURER	SERIES			
Deutsch (TE)	AS, ASL, ASR, ASC, ASV, AS-Mini, ASDD, AS-Micro, ASHD			

NOTICE: Unless otherwise stated by DMC; tools contained in this kit have been selected based upon their suitability to service the related connector or contact indicated. Military Standard tools have been utilized wherever possible. These tools are not necessarily the production tools used to manufacture the aircraft and therefore, these tools may or may not correspond to the tools listed in the OEM wiring manual and/or the Chapter 20 Standard Wiring Practices Manual list of approved tooling. Verification Is Required.

TOOL KIT CONFIGURATION		
Type of Case	Portable	
Number of Cases	1	
Color	Black	
Type of Construction	Polypropylene Copolymer	
Application	Autosport Connectors	
Coverage	Airframe Power Connectors	
	Terminals size 12 AWG and Smaller	
	Coaxial Connectors	
Type of Inserts	Unicellular Polyethylene Foam with Silhouetted Tool Cavities
