

DMC449 MIL-DTL-38999 Series 1&3 MAINTENANCE KIT For Electrical Connectors and Wiring Systems

DMC449 KIT for MIL-DTL-38999 Series 1 & 3, Sizes 20 & 22D

Actual Kit may vary from example shown.

The DMC449 electrical connector maintenance kit contains the crimp tools, turret head, positioners, gages, and insertion/removal tools necessary to service MIL-DTL-38999 Series 1 and 3, Sizes 20 and 22D.

It is not a cost effective use of the time of your technical staff to start from scratch and try to become intimately knowledgeable about which precision tools must be used to repair each electrical connector, contact and terminal. The DMC449 kit supplies your staff with both the information and the tools necessary to repair MIL-DTL-38999 Series 1 and 3, Sizes 20 and 22D.

DMC has cross referenced these tools to the MIL-DTL-38999 Series 1 and 3, Sizes 20 and 22D and the contacts they use, eliminating costly and time-consuming research which would otherwise have to be performed by your electrical technicians. This information is contained in an easy to read tool selection chart.

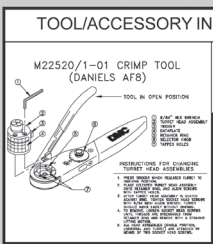

In addition, the DMC449 kit contains illustrated operating instructions for all the tooling included.

DMC449 TOOL AND ACCESSORY LIST		
	1	Crimp Tool
	3	Positioners
	2	Insertion Tweezers
	2	Removal Tweezers

TOOL KIT CONFIGURATION	
Type of Case	Portable
Number of Cases	1
Color	Gray
Type of Construction	Steel/Aluminum
Application	MIL-DTL-38999 Series 1 & 3, Sizes 20 & 22D
Type of Inserts	Unicellular Polyethylene Foam with Die Cut Tool Cavities
