

# DMC757 Connector Series Tool Kit

## For Electrical Connectors and Wiring Systems

### DMC757 Connector Series Tool Kit

Actual Kit may vary from example shown.

The DMC757 electrical connector maintenance kit contains the crimp tools, turret head, positioners, gages, and insertion/removal tools necessary to service the MIL-C Series connectors listed below.

The DMC757 kit also supplies your staff with the information to select and use the tools necessary to repair the covered connectors.

It is not a cost effective use of the time of your technical staff to start from scratch and try to become intimately knowledgeable about which precision tools must be used to repair each electrical connector, contact and terminal. So DMC has cross referenced these tools to the connector series covered and the contacts they use for you. This information is contained in an easy to read tool selection chart.

In addition, the DMC757 kit contains illustrated operating instructions for all the tooling included.

#### DMC757 TOOL AND ACCESSORY LIST

	2	Crimp Tools
	2	Turret Heads
	6	Positioners
	12	Metal Insertion Tools
	12	Metal Removal Tools
	4	Contact gages
	2	Unwired Contact Removal Tools w/ Probes
	1	In-Service Inspection Gage
	1	Hex Wrench
	1	Wire Harness Spoon
	4	Retention Testers

DMC757 CONNECTOR COVERAGE	
MANUFACTURER	SERIES
MIL-C-5015	3450
MIL-C-24308	Rack and Panel
MIL-C-26482	I & II
MIL-C-26500	
MIL-C-38300	
MIL-C-38999	I, II, III, IV
MIL-C-81703	II, III
MIL-C-83723	I, II, III

TOOL KIT CONFIGURATION	
Type of Case	Portable
Number of Cases	1
Color	Grey
Type of Construction	Steel/Aluminum
Application	Airframe Power Connectors
	Terminals size 12 AWG and Smaller
Type of Inserts	Unicellular Polyethylene Foam with Die Cut Tool Cavities
