

DMC838 AFM8 STARTER KIT

For Electrical Connectors and Wiring Systems

**DMC838
AFM8 STARTER KIT**

This "Starter Kit" is an excellent training aide for familiarizing students and beginning technicians on the proper use of the AFM8 (M22520/2-01) crimp tool.

The DMC 838 kit supplies your staff with the information and accessories necessary to use your AFM8 (M22520/2-01) tool for crimping size 20 electrical contacts.

Illustrated operating instructions are included for the AFM8 and accessories.

Qualified to MIL-DTL-22520/2, the DMC AFM8 crimp tool is designed for most of the miniature and sub-miniature connector types that are so widely used in all types of electronic systems. With additional positioners, the AFM8 meets the need for a miniature tool accommodating wire sizes 20 through 32 AWG.

The AFM8 gives a Mil-Standard 8 impression crimp, which assures maximum tensile strength. The cycle controlled precision ratchet assures consistently accurate crimps every time. The tool frame has a built-in 8 step selector knob for ease in dialing the correct crimp depth setting for the wire being used.

DMC 838 TOOL AND ACCESSORY LIST

| | | |
|---|---|---|
|  | 1 | Crimp Tool |
|  | 1 | Universal Positioner |
|  | 5 | Plastic Ins/Rem Tools |
|  | 1 | Wire Cutter |
|  | 1 | Combo Tool (Cutter, Stripper, Crimper) |

TOOL KIT CONFIGURATION

| | |
|----------------------|---|
| Type of Case | Portable |
| Number of Cases | 1 |
| Color | Grey |
| Type of Construction | Steel/Aluminum |
| Application | M22520/2-01 |
| Type of Inserts | Unicellular Polyethylene Foam with Die Cut Tool Cavities |

Actual Kit may vary from example shown.
